Man's Will Recommends That Heirs Sell Big Auto and Buy a Ford Car

Unique is the provision in the will of J. C. (Pet) Rives, that was prebated in the McCracken county court yesterday.

One clause provides the recommendation "that any large automobile that may be owned at the time of my death, be sold for the purpose of the purchase of a small Ford car."

Mr. Rives devised a farm located on the Paducah-Ogden road to his son, Wayne Rives, and a one-half interest in real property located at Cecil and on North Fifth street in Paducah to his daughter, Mamie Rives.

All the remainder of his real property including the home of his late wife, Mrs. Dovie Rives, All of his personal property is bequeathed to his widow.

RACE TRACK GAMBLING IS DENOUNCED.

A large crowd attended the mass meeting held at the Baptist church Sunday afternoon for more than an hour Dr. M. P. Hunt, of Louisville, held the attention of the large audience which seemed to take much interest in the issue discussed.

At the close of the service, an offering was taken for the furtherance of the work of the Kentucky Anti-Race Track Gambling Commission, and the following resolutions were unanimously approved:

"Inasmuch as this mass meeting of several hundred representative citizens of this city and section have learned with deep dismay of the already strong and fast growing interest in race track gambling in financial and political power in our state; and

"Inasmuch as we clearly and fully realize and sorrowfully deplore the unspeakable evils of gambling in all its numerous and vile forms—particularly as vampire-like it attaches itself to an otherwise honorable business and innocent pastime, with that as only a more deadly disguise; and

"Inasmuch as such gambling, by the so-called pari-mutuel system, or otherwise, is an inherently immoral evil, without a single redeeming trait, and has, by some means hitherto unaccounted for, become exempted from the prohibition and penalties of our State's statutes, which pronounce every other sort of gambling everywhere as a felonious offense; and

"Inasmuch as we know that, since all gambling leads directly to almost all offenses in the black catalogue of crime—from embezzlement to suicide—and thus no law favoring or allowing it can be socially or morally right;

"Therefore, this assembly hereby records by public vote:

"First—Its absolute opposition to all legislation and legislators in Kentucky as so favoring gambling in this specific form as now allowed by law;

"Second—Our deliberate determination to use all honorable means in our power to secure the earliest possible repeal of this nefarious exception in the gambling laws of our state;

"Third—Our public pledge of sympathy and substantial support in the aims and work of the Kentucky Anti Race Track Gambling Commission, as outlined in the present campaign."

MORTUARY

Isaac W. Woodall, aged 55 years, died Wednesday evening of last week, at his home near Almo. He had been ill for several months and suffered a paralytic stroke a few days before his death.

Mr. Woodall leaves an aged mother, four children: Mrs. Lloyd Guerin, Mrs. Cloys Hopkins, Iel Woodall and Kenton Woodall, and two sisters, Mrs. Chas. M. Hood, this city, and Mrs. O. O. Miller, Hazel.

Mr. Woodall has been a member of the Christian church since boyhood. Owing to the distance from his home to church of his choice, he had for quite awhile taught, a class in the Methodist Sunday School with the Temple Hill congregation. He was a Christian gentleman and had many friends who were grieved to learn of his passing away. Interment at Temple Hill cemetery after funeral services with Rev. Coleman Overbey officiating.

Mr. Robt. Murrell died Friday Feb. 9, at the hospital. Mr. Murrell had been ill for several weeks at his home near Hardin, before being removed to the hospital. He was a former resident of this city and was a brother of Robt. Murrell. The funeral was conducted at the home of Toy Farmer, after which the remains were laid to rest in the Scandia cemetery, in Graves county.

Mrs. Mary Jane Thomas, 78 years old, who broke her hip a few weeks ago, died of pneumonia at the home of her stepson, J. E. Thomas, this city, Monday afternoon. Interment at City cemetery Tuesday.

Mrs. Chas. Garrett, aged 24 years, who has been an inmate of the asylum at Hopkinsville, died Monday afternoon. Her remains were brought here where she formerly lived. The funeral and burial services were at Beech Grove cemetery.

Tobacco.

More than 100,000 pounds of tobacco was received at the Dark Tobacco Growers' Association here Monday, and Tuesday morning, despite the big rains Monday.

Nearly 400,000 pounds have been received since the association warehouse opened two or more weeks ago. The grades received are in good marketing condition and the farmers seem pleased with the manner in which the leaf is classified.

Mr. Wilkinson, head book-keeper says deliveries at the warehouse have been scheduled until March 22. Warehouse manager, N. P. Hutson, is planning to receive an average of 150,000 pounds daily within a short time.

Work is in progress putting up pricing presses in two storage warehouses owned by the association, to be used for storing later in the season.

Some tobacco has passed thru the chute at prices ranging about the same as for the last few weeks.

About 20,000 pounds were sold at Paducah loose leaf floor Monday. Leaf brought from \$8 to \$23, seconds \$6 to \$7.75 and lugs from \$2 to \$4.75. General average \$14.

To-day is St. Valentine's Day and the kiddies, and some grown ups, are enjoying the day exchanging names and otherwise.

AT THE HOSPITAL

[WILLIAM MASON MEMORIAL]

Ester Gore of Puryear, Tenn., was operated on at the hospital the last week.

Mrs. W. B. Patterson who has been a patient at the hospital for several weeks was discharged this week in good condition.

Miss Lula Clayton Beale, daughter of Mr. and Mrs. Jack Beale, Jr., was operated on for appendicitis Thursday night. She is progressing splendidly.

Miss Evie McDaniel who was operated on at the hospital last Tuesday is progressing, well toward recovery.

Miss Mildred Wharton of Cadiz, Ky., was discharged from the hospital this last week very much improved.

Mrs. Nat Ryan, of this city, is a patient at the hospital.

Mrs. Roy Simmons, of Combs, is a patient at the hospital.

Dr. W. H. Newcomb, the inspector of hospitals from the American College of Surgeons of Chicago, was here at the hospital last Friday inspecting the hospital, its records, laboratory, operating rooms, X-ray equipment, etc.

He was delighted to find it so modern and up-to-date and expressed himself as well pleased with all he inspected.

"He thought the institution had made phenomenal progress and was surprised to find an institution so well equipped in a town the size of Murray."

PADUCAH YOUTH HELD FOR MURDER

Lexington, Ky., Feb. 11.—The mystery surrounding the fatal shooting of Joseph N. Self, 47, night watchman at the University of Kentucky on the university campus at 11 o'clock Saturday night, was said by police to be cleared up today when a charge of murder was placed against W. H. Middleton, 21, freshman of Paducah, Ky.

Middleton is in the Good Samaritan Hospital suffering from two bullet wounds in the back and side. Both bullets are still in his body. One pierced his lung and physicians say he probably will not recover.

Self was found writhing in the snow on the campus by students a minute after six shots and cries were heard. He was shot one time through the lung with a steel jacketed bullet which passed almost entirely through his body. He died while being taken from an ambulance to an operating room at the good Samaritan Hospital without being able to tell who shot him.

Three hours later Middleton was taken to the same hospital by several of his fraternity brothers. He is said to have admitted shooting Self but told officers that he fired in self-defense after the night watchman had fired at him. His name was entered on the police slate under a charge of murder.

Persons who heard the shots as the first shot was followed by a slight pause and then five shots in quick succession. Self's gun was found by his side with all chambers empty.

A young woman student, Miss Clover Coleman, whose home is also in Paducah, was in an automobile with Middleton when the shooting occurred. She was a resident of Patterson Hall, a

The papers announce that Mr. Barkley will carry his fight into his opponents territory, and naturally Mr. Cantrill will also invade Mr. Barkley's district, and both of them will make a fight for the fifth, the big Louisville district. It is pleasing to note that neither one of them is known to the millionaire's club of Louisville, and they are going right ahead with their friendly fight for the Democratic nomination for governor. And one of them is certain to be nominated and elected, notwithstanding the frantic efforts of Percy and Bobbie to bring out a "business man" that they can do "business" with.

"More Republicans Have a Change of Heart Regarding Muscle Shoals."

There may be more politics than sincerity in the sudden change of attitude on the part of Republican leaders now urging speedy congressional action on Henry Ford's bid to acquire Muscle Shoals and immense power plant there. Men who a few weeks ago were known to be heartily in sympathy with the efforts to prevent action on the Ford offer are now urging that the matter be given serious consideration and implying, if not declaring outright, that they favor acceptance of the Detroit manufacturer's offer. Proposition in all likelihood will be an issue in 1924 campaign.

Dr. Raymond Pearl, professor of vital statistics at Johns Hopkins University, says that the United States will reach her population limit by 2100. This is rather a startling assertion. He further observes that if no way has been found to beat population's progress, this country will find itself then in the same position as China. With our 200,000,000 inhabitants we will ex-

CARLISLE VOTES \$300,000 BONDS FOR GOOD ROADS

Carlisle county voters paved the way for better roads through West Kentucky by passage, with a vote of 3 to 1, of a \$300,000 road bond issue in a special election yesterday. The vote stood 1,218 to 395 against, according to an unofficial tabulation last night from every precinct received by the News-Democrat.

Good roads boosters in the county claim that the bad weather was the only thing that prevented an even larger majority. The vote created no surprise for campaignists in favor of the bond issue passage were made by various speakers from Paducah, Arlington, Bardwell and other Purchase towns interested.

By passage of the \$300,000 issue improved highways, built by county, state and federal funds, will be constructed from Bardwell to the McCracken county line and from Wickliffe through Arlington to the Hickman county line. Other roads in the county will be improved as well.

Col. Ben Weille, secretary of the state highway commission, despite an illness of two weeks of influenza, will carry on the fight for good roads in West Kentucky, in those counties where bond issues have been passed to Frankfort tomorrow when he will ask for \$1,199,600 for road improvements.

Links in these highways are included in the demands to be made by Mr. Weille. The highways are the Paducah-Louisville road, the Jefferson Davis Highway and the Dixie Bee line.

Statistics showing the need of construction in the various counties have been obtained by Mr. Weille. —News-Democrat.

BOY SCOUTS OF AMERICA ANNIVERSARY FEB. 8-15

Boy scouts throughout the country are celebrating the Thirtieth Anniversary of their organization. A feature of the celebration is a pledged increase in membership of 100,000 boys, bringing the total to the half million mark.

"The aim of the movement," says James E. West, Chief Scout Executive, "is character building and citizenship training thru organized work and play in the out-of-doors."

In its brief history the Boy Scout Movement, in conformity with its slogan, "Do a Good Turn Daily," has given the country organized capable service in campaigns for Safety First, Clean-Up, Better Health, Forest Fire Fighting, Wild Life Conservation, Bird Protection, and similar important interests. Competent first aid has been rendered in many individual cases, and in connection with most public disasters, such as the influenza epidemic, the Pueblo and San Antonio floods, and the Knickerbocker theater tragedy. During the past year six hundred and three Boy Scouts have been awarded medals in risking their lives in trying to save others. In addition to the community good turns, countless individual good turns have been performed. Carrying a baby up a hill for a lady; holding a horse for a man at the depot; caring for sick animals; helping guide blind persons; stopping with courtesy to pick up papers that have fallen from the stand of an old vendor, have been typical of scouts' daily good turns.

Thru Scouting a great impetus has been given to outdoors life. Summer camping for boys has been put on an organized basis. Over 175,000 Boy Scouts last summer spent two weeks or more each in camp. Winter camping is also being promoted by the organization.

The Movement thru its direction of the boys' leisure time into channels of wholesome, constructive activity has been pronounced by social agencies as one of the great factors in the prevention of juvenile delinquency.

In the scout program provision is made for a boy to advance in rank. Among the required

REMOUNTS FOR THE CAVALRY

Secretary of War Weeks Says The Thoroughbred Is A Necessary Factor In Furnishing Suitable Horses For The United States Army

CONGRESS RENEWS BREEDING APPROPRIATIONS

Congress has renewed the appropriation for the breeding of mounts for the cavalry branch of the Army. This is of particular interest to Kentucky because the Remount Service looks to this State to furnish most of the thoroughbred stallions which are being used in various sections of the country to head the breeding farms carried on by the United States Government.

Secretary of War John W. Weeks has gone on record as being heartily in favor of the plans of the Remount Service in this connection. He says: "One of the most valuable breeds in existence for kind general utility and riding horses is the thoroughbred. He is also of inestimable value as a cavalry sire, and the demands of the country today for stallions to sire riding horses, cavalry horses, cow ponies and general utility horses, particularly for Southern work, indicates that the demand for this breed of stallion greatly exceeds the other light breeds combined."

"General Bates of the English Remount Service, who had charge of the English purchasing in this country, stated in his official report that the United States had probably the best draft horses and mules in the world, but that the riding or cavalry horse did not exist in this country in appreciable numbers; and in purchasing animals in the United States, the English Government could only secure a substitute for the riding cavalry horse. The English, therefore, secured the majority of horses of this type from Australia and Canada."

"There is a great shortage of the riding and utility horses in this country, but breeding fortunately has been revived, and the Government through the Remount Service of the Army has found it necessary to encourage and assist this breeding."

"A study of the breeding in all nations shows that the thoroughbred horse is regarded as one of the best sires for cavalry and general utility work, and that they do more work, stand more hardship, heat and cold, and show more courage and endurance for such advancement are first-aid, swimming, life saving, signalling, knot tying, hiking and camping. In addition a scout can work for merit badges in one or more of sixty-one subjects. Among these subjects are personal and public health, radio, carpentry, agriculture, cooking, drawing, music, pacing, staking, angling, archery and nature study. Thus far over 456,279 merit badges have been awarded to scouts who have fulfilled the requirements necessary to gain such an honor."

The great guiding principle of the movement, the Scout Oath, which every member promises to follow is: "On my honor, I will do my best: 1. To do my duty to God and my country, and to obey the Scout Law; 2. To help other people at all times; 3. To keep myself physically strong, mentally awake and morally straight."

The Scout Law embraces 12 points, trustworthiness, loyalty, helpfulness, friendliness, courtesy, kindness, obedience, cheerfulness, thrift, bravery, cleanliness, reverence.

Attorney Weeks to Uncle Jim Webb, Mayfield

Dear Uncle Jim:— I write to report that we have a new boy at our house by the name of George Henry Weeks. He weighs ten pounds and has strong lungs and is not at all timid.

This makes six—four boys and two girls. The greatest trouble I see in the future is that I don't know what I will do, because these boys will do all the work and will not allow me to do anything. Hoping there will be some way in which I can keep employed and not give up to idleness, and trusting that some plan may develop on which I can do this, I big to remain.

Your devoted nephew,
Joe H. Weeks.

Something Should Be Done Quick

Calloway's roads—in fact most all west Kentucky roads are getting in bad condition on account of so much rain. There are places on many of our roads most impassable, and with additional rains, which are predicted, they will grow worse and interfere still more with tobacco deliveries. First, we should have one first-class road through the county, each direction, then build to them. Our people should get behind some kind of a "better road" movement. We need them.

"Slimy Taste"

"When I feel stupid, get constipated, or bilious, I take a good dose or two of Black-Draught and it sets me straight," writes Mr. George B. Haislep, of R. F. D. 2, Columbia, S. C. "It cleanses the liver and I feel all right, and have not used any other medicine as I do not see the need of it. I am a guard at the State Reformatory, and have been for three or more years. When I first heard of

BLACK-DRAUGHT

Liver Medicine

and the good medicine it was, I had been having a tired feeling when I'd get up in the morning. I would be stiff and sore, and had a slimy, bad taste in my mouth, but didn't think so much of it till I began to feel stupid and didn't feel like eating—then I knew I needed medicine. It was then I began Black-Draught, and I felt all made over, ready for any kind of work, ready to eat and sleep. So, for any return of this trouble, I take Black-Draught, and for 25 years it has been my medicine, and I wouldn't be without it at all. My work is constant, I am on my feet a lot. I am out of doors, and fresh air and Black-Draught are all the medicines I need. I recommend it to others for I know it is good."

All automobile owners are asked to slow down to ten miles an hour in the business part of the town of Murray; also to have two lights on their cars after night, and park your cars around the court house yard or other places outside of the business district where it shall not obstruct traffic.—CALVIN STUBBLEFIELD.

Last Saturday must have been "chicken day" in old Murray. Twenty-four thousand pounds of hens were delivered in Murray to our produce dealers and loaded in cars on the tracks here. The price paid was 21c per pound, running the amount of money up to more than five thousand dollars to go into the pockets of Calloway chicken raisers. Several \$50 dollar and \$60 checks were issued to individuals for hens delivered that day. One man brought in twenty hens for which he received more than \$26.

Ford

THE UNIVERSAL CAR

Everything points to the greatest Spring demand for Fords in the company's history.

If you intend to buy a Ford Car, Truck or Tractor in 1923, you should buy it as soon as possible. On certain types we cannot make deliveries now.

Practically one-half of the automobiles manufactured in the United States are Fords—in Calloway county there are approximately 1400 automobiles—over 1000 of these are Fords.

In 1922, 224 Fords were sold in Calloway county, and only 35 of all other make cars combined.

There are a number of improvements in the late Ford models, as a result we are offering the best Ford car, and at the best prices that has ever been made in the history of the Ford Motor Co.

Everything points to the biggest shortage of Ford products this Spring that has ever existed.

We are giving you these facts as they actually exist, so that if you are planning to purchase a Ford car, truck or tractor for use this Spring or Summer, you can best place your order now, and take advantage of our first opportunity to make delivery.

MURRAY, KENTUCKY

TO FARMERS OF CALLOWAY CO.

Dear Farmer Friends

and Bureau Members:

Mr. Gray Silver, Washington

representative of the Farm Bu-

reau Federation, is pleading with

us to urge our Senators to sup-

port a number of Legislative

measures of vital importance to

the farmer; among which are

the Truth-in-Fabric Bill, which

provides that all Manufacturers

shall label their goods, specifi-

cally the material from which they

are made, the per cent of each,

and whether good or shoddy.

The Norbeck-Nelson Bill, which

provides some kind of revolving

fund to be placed in the hands

of the War Finance Commission,

that will enable us to resume

trade relations with Europe,

thereby establishing a market

for our surplus products; "For

What Will It Profit Us To Raise

Bumper Crops If We Have No

Market Upon Which To Sell

them." Now, Europe is a great

field of opportunity and wonder-

ful possibilities if we will only

seize it. We need their trade,

and they need our goods, for

which they will have a strong

demand for at least a decade,

for a number of countries around

them from whom they have hith-

erto been securing a great deal

of their supplies are producing

from one half to three fourths

below normal and will be for a

number of years at best, on ac-

count of their depleted condition

from the ravages of war and

their unsettled Civic conditions

at present, it will be impossible

for them to come to her relief

for a number of years. There-

fore, it leaves us with practically

only one competitor, Argenti-

na. Shall we seize the opportu-

nity or shall we turn it over to

them?

Another measure that should

invite the attention and support

of every farmer, is the Mues-

sels Fertilizer project, for it

is one of the most vital questions

that confronts the American

farmer today, for the passage of

this bill is the only chance for

the farmer to even hope to see

cheap fertilizer again, or for

many years at least, therefore it

is a duty that every farmer owes

to himself and family to rally to

the support of this bill.

Now it is not only up to the

Farm Bureau to accomplish these

things, but it is up to you who

are not members of the Farm

Bureau as well to assist in

protecting yourselves from the

tyranny of these Over Lords that

are trying to prevent the pas-

sage of these bills, and reduce us

to poverty and want by wresting

from our possession the hard

earned fruits of our toil without

remuneration. The time has

come that requires immediate ac-

tion, and organization is our only

means of defense. The Farm

Bureau is doing all in its power

but their success depends abso-

lutely on their strength, there-

fore they need your strength

and support. 'Tis true that

those big noble hearted neigh-

bors of yours are willing to lay

down their money, and do all in

their power they can for you,

and if they should lose you are

not out anything, but the cause

they have lost is yours. There-

fore, it is the duty of every far-

mer to enlist in this great work

and help his neighbor help him-

self to fight this great Monster

of Greed and Graft, who is ever

alert while we wake and while

we sleep for any opportunity to

put forth that hidden hand of

oppression and crush the very

life from our industry; there-

fore in the name of Humanity

and Justice to ourselves; let's

one and all enlist without delay

in the defense of our just, moral,

industrial and civic rights; for

delays are fraught with many

dangers. "Procrastination is

the thief of time." If you are

not a member, enlist today, and

then get your neighbor to enlist

with you, for we need you and

you need us. Do it now.

P. S.—It has been reported

that both Kentucky Senators are

opposed to the Copper-French,

Truth-in-fabric Bill. Upon this

information the Kentucky Farm

Bureau wrote both Senators at

once, asking if this information

was correct.

See what you read about in school. Very interesting and edu-
cational to school children, and will refresh the recollection of the
grown-up of the wildest band of daring adventure that has ever
opened up a new world, making dramatic history with every step
every FRIDAY NIGHT AT THE WOODRUFF

This show will please everyone.

Starting Promptly at 7 O'clock. 10 and 25c.

ABRAHAM LINCOLN

(Feb. 12, 1809—April 15, 1865.)

day the nation revered the mem-
ory of the State's greatest son.

A NEW HOME FOR THE AGED

The Christian Churches of
Kentucky are to build a new
home for their aged and depend-
ent members. Mr. J. S. Hilton,
the secretary of Benevolent work
of the Christian churches of Ken-
tucky, makes the statement,
"plans have been drawn for the
new structure, and that work
will begin in the very near fu-
ture. The building will be of
brick, steel and concrete and ad-
joins the present Christian
